INTERNSHIP

INTERN
Vadodara
Oct 2020 - Present

One web technology

In my Internship period we learn so many Technology like Html, Css, javascript, Asp.net Mvc, Bootstrap, Jquery and complete client project on time.

ABOUT ME

Carrer Objectives:

- Seeking opportunity, ready to use my software skills, and innovative ideas and knowledge skills technical skills to give our best for company growth and organization.
- I also seek opportunity to learn new skill for future.

Projects:

Digital Business Card (MVC)
In the digital business card project we use the asp.net mvc technology sql server html css etc.User have register from our website and see the lots of card design.choose one design and make his digital card and share their card with anyone using link.

Advanced Passenger Recognition System(2019-2020):
It makes use of the Facial Recognition System for identification of passengers travelling by privately owned bus transit agencies. Each trip of bus fetches data from the registration that was previously made, and uses that data to recognize all the passenger that enter the bus and have boarded for journey. This becomes immensely useful in scenarios where there could be possibility of lack of information for a passenger, or passenger &being forgetful, untimely to come back to bus after it takes a stop mid-way etc.

Strengths:

- Ability to work in team.
- Energetic and Focused toward work.
- Eager to Learn.
